その音があるがままに。Since 1946.

Pure Sound. Since 1946.

High Resolution Audio is supported on the H500M headphones, providing an exceptional listening experience. Hear every nuance recorded in the studio from sound quality that surpasses CDs. An ergonomic design ensures comfort, and a detachable cable offers convenient in-line control and mic for easy switching between music and calls.

Feature highlights

Supports High Resolution Audio

Closed acoustic architecture with custom designed Φ 40mm high power driver

Sophisticated aluminium housing provides a rigid metal cabinet to eliminate unwanted vibrations

Detachable twisted tangle-free cable with in-line control

High Resolution Audio

Hear new depth with High Resolution Audio. Sampled at a higher bit depth and sampling rate than CDs, High Resolution Audio reproduces wider frequencies to help you hear more of your music. H500M headphones optimized for High Resolution Audio will play back these files without degradation, guaranteeing a crisp, detailed and flawless listening experience.

Pure precision

The Onkyo sound signature is clean, clear and precise. The H500M's 40mm high power driver is fine-tuned to deliver crisp details and subtle nuances in your music. To maintain audio purity, advanced headphone housing construction eliminates unwanted vibrations for extended treble response. Engineered for precision and performance.

Comfort and clarity

H500M headphones feature a sturdy housing that provides both durability and lightweight wearability. Deluxe ear cushions provide an ergonomic fit, delivering comfort while ensuring the ear shell creates an acoustic seal. This keeps the details of your music in, and unwanted noise out.

Specifications

Product name	H500M Outdoor Headphones with microphone
Model number / EAN	H500MB/00; 6925970751100 H500MB/11; 6925970751117
