

フルワイヤレスヘッドホン
True Wireless headphones
with microphone and charging case

その音があるがままに。 Since 1946.

Pure Sound. Since 1946.

With absolutely no cables, W800BT are the True Wireless in-ear headphones. This is a genuine breakthrough innovation that allows you to immerse yourself in audio freely and naturally. Left and right earpieces work independently and connect wirelessly to each other and to the smart device for a completely wireless experience.

Feature highlights

True wireless. No cables between left and right earbuds or device

Closed acoustic architecture with custom designed Φ 8.6mm high power drivers

Charging case included for storage and recharging

Breakthrough innovation

Using Bluetooth® streaming technology, this is a breakthrough in portable music technology, able to offer quality sound without a single cable between the earpieces or the device to create a genuine feeling of freedom and flexibility.

Pure precision

Onkyo's signature clean, clear and precise sound is created by Ø8.6mm high power drivers that deliver rich bass, balanced mid-range and crystal clear treble frequencies for an authentic musical experience across a frequency range of 6Hz – 22kHz. A closed acoustic architecture seals out sound creating a clear and accurate audio experience without external interruptions.

Comfort and on-the-go

The shape and the stabilizer design of the W800BT have been carefully considered according to ear geometry to ensure a secure, comfortable fit. The right earphone also includes a microphone for hands-free calling and can be used with any Bluetooth-enabled device. The accompanying charging case can also charge the W800BT a total of 5 times through its internal battery.

Specifications

Product name	W800BT True Wireless headphones with microphone and charging case
Model number / EAN	W800BTB/00; 6925970752855 W800BTB/11; 6925970752909
Model number / UPC	W800BTB/27; 889446101126

[Sound]

Driver diameter	Ø8.6mm high power driver
Acoustic architecture	Closed
Frequency response	6Hz - 22kHz
Sensitivity	107dB/mW
Impedance	16ohms
